

Amendments to the Claims:

This listing of the claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (canceled)

Claim 2 (currently amended): The method of claim 22 wherein the video image is provided for display on a screen of a display having a smallest addressable screen unit and the predefined amount is the smallest addressable screen unit ~~on the display~~.

Claim 3 (previously presented): The method of claim 22 wherein the predefined amount is one pixel.

Claim 4 (previously presented): The method of claim 22 wherein the predefined amount is a relatively small predefined random number of pixels.

Claim 5 (previously presented): The method of claim 22 wherein the predefined amount is one full character position.

Claim 6 (previously presented): The method of claim 21 wherein the textual information is moved at least once per hour.

Claim 7 (previously presented): The method of claim 21 wherein the textual information is moved at least once per day.

Claim 8 (currently amended): The method of claim 21 wherein the video image has a top and bottom and the textual information is overlaid near the bottom of the CRT screen video image.

Claim 9 (previously presented): The method of claim 21 wherein the textual information is overlaid near one of the two bottom corners of the CRT screen.

Claims 10-20 (canceled)

Claim 21 (currently amended): A method of displaying video comprising the steps of:

- (a) providing a video image;
- (b) overlaying textual information on top of the ~~underlying~~ video image in a manner to minimize interruption to the ~~underlying~~ video image; and
- (c) moving the overlaid textual information periodically without moving the ~~underlying~~ video image in a manner to minimize interruption to the ~~underlying~~ video image.

Claim 22 (previously presented): A method as recited in claim 21, wherein said moving step comprises periodically moving the overlaid textual information by a predefined amount.

Claim 23 (currently amended): A method of displaying video comprising the steps of:

- (a) providing a live video image from a camera;
- (b) overlaying textual information on top of the ~~underlying~~ live video image; and
- (c) moving the overlaid textual information periodically without moving the ~~underlying~~ live video image.

Claim 24 (previously presented): A method as recited in claim 23, wherein said overlaying step comprises overlaying textual information on top of the underlying live video image in a manner to minimize interruption to the underlying live video image.

Claim 25 (previously presented): A method as recited in claim 23, wherein said moving step comprises periodically moving the overlaid textual information without moving the underlying live video image in a manner to minimize interruption to the underlying live video image.

Claim 26 (previously presented): A method as recited in claim 24, wherein said moving step comprises periodically moving the overlaid textual information without moving the

underlying live video image in a manner to minimize interruption to the underlying live video image.

Claim 27 (currently amended): A method as recited in claim 26, wherein the video image has a top and bottom and the textual information is overlaid near the bottom of the ~~CRT screen~~ video image.

Claim 28 (currently amended): A method as recited in claim 26, wherein the video image has a top and bottom and the bottom has two corners and the textual information is overlaid near one of the two bottom corners of the ~~CRT screen~~ video image.
